

SAVE OUR JOBS— STOP FAST TRACK NOW!

Tell Congress that America needs jobs, not bad trade policy.

What is Fast Track?

- A process used to negotiate 2,000+ page trade deals, written by corporations to sidestep our democracy
- Unnecessary legislation that will pave the way for trade deals like the Trans-Pacific Partnership (TPP)
- Fast Track will let the president negotiate trade deals behind closed doors and force Congress to vote on those deals without making any changes or amendments
- It will mean our elected representatives in Congress give up their authority to review and amend trade deals, which removes any chance of improving deals that hurt American workers

How will it hurt working families?

- Fast Track will ship American jobs overseas
- Fast Track will drive down wages
- Fast Track will stack the deck AGAINST the middle class and FOR corporations
- Fast Track will destroy our system of checks and balances and give a blank check to the executive branch

What can you do? TAKE ACTION!

- Call Congress at 1-855-712-8441 and tell them to put the brakes on Fast Track RIGHT NOW!
- If your representatives are FOR Fast Track or UNDECIDED about Fast Track, tell them you and your members are constituents who oppose Fast Track
- If your representatives are AGAINST Fast Track, make sure you thank them for their support

**CALL CONGRESS NOW AND TELL THEM TO SAY NO TO FAST TRACK
